THE PROJECT

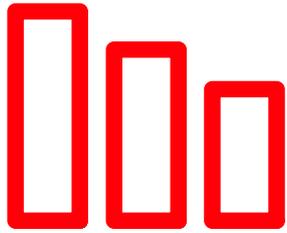

WWW.WESCHOOLEUROPE.INFO

We School Europe (WSE) is an Erasmus Plus Strategic Partnership project lasting 2 years (2017-2019) managed by a consortium composed by 5 lower secondary schools based in Italy, Romania, Poland, Estonia and Macedonia. More than a project, WSE is potentially an endless learning process aiming at the creation of a new EU curriculum based on European Citizenship Education which means a radical change in the actual national educational systems where the topic "Europe" is not taught as it should be making our schools more European. WSE foresees a permanent high quality training pathway for "European Teachers", 3 Transnational Project Meetings for coordinators, 2 Learning Mobilities including also pupils and the realization of 3 main Intellectual Outputs.

TARGET GROUPS

TEACHERS

PUPILS

LEARNING COMMUNITIES

Educational activities focus not only on teachers and pupils but also the local communities which we call " Learning communities" composed by many different key actors: parents, brothers, grandfathers, enlarged families, local mentors etc...

3

INTELLECTUAL OUTPUTS

Concrete products to be used, delivered to other beneficiaries, spread and disseminate.

3

TRANSNATIONAL PROJECT MEETINGS

Short meetings
among coordinators
(2 persons per
partner - 2 days)

1st one - Corigliano
Calabro (CS -
Calabria Italy) -
16-18/11/2017

2nd one - Katowice
(Poland) -
12-14/04/2018

3rd one - Kumanovo
(FYROM)
February 2019

2

LEARNING MOBILITIES

7 days meeting with
2 teachers and 10
pupils per partner

1st one - Tartu
Village (Estonia)
23-29/09/2018

2nd one - Corigliano
Calabro (CS)
17-26/05/2018

ERASMUS PLUS

EU's programme to support education, training, youth and sport in Europe

We School Europe is a project founded by the Erasmus Plus Program in the year 2017 and lasts until the 31/08/2019.

Erasmus Plus supported the implementation of the several activities led by the "I.C. Erodoto" together with four great partners:

Partner 2 ROMANIA: "Scoala Gimnaziala nr. 10" - Suceava

Partner 3 ESTONIA: "Sillaotsa School" - Tartu County

Partner 4 POLAND: "Szkoła Podstawowa nr 34 im. Mikołaja Kopernika - Katowice

Partner 5 North Republic of Macedonia: "Toli Zordumis" - Kumanovo.

THE IDEA of the T-KIT

The Teachers Training Training Kit is the final product of a long term process of international cooperation among 5 partner schools, research, experimentation, discovering, definition of 23 Modules, design of several Lesson Plans, implementation of "European Lessons", revision, testing, sharing, creation of new didactic materials, use of technologies and reporting.

The idea behind the Training Kit was born to give the chance to teachers to focus on their personal and professional upgrade, becoming first trainee by an external expert on European Studies and Policies, then trainers and experts themselves able to teach "Europe" at school, train colleagues, disseminate and involve other schools in discovering the so-called "European Citizenship Education".

Methodology

During the design and the implementation of the Lesson Plans teachers developed and experimented all the methodologies which nowadays can be considered part of "Innovation" in didactic with the wider perspective of European Framework (Pedagogy of the 21st century).

At the base of the whole methodological research process, remains the big creativity through a continuous work using colours and hands

Short list

- 01 Cooperative learning
- 02 CLIL
- 03 Media education
- 04 Outdoor education
- 05 Flipped classroom
- 06 Videomaking
- 07 Music education
- 08 Coding
- 09 Digital education
- 10 Mobile pedagogy
- 11 Creativity&art
- 12 Mind mapping
